		<p style="text-align: center;"><b>Semestre 1</b> <b>2025_2026</b></p>

**Objectives:** Create an mp4 video to present phishing.

**Requested work**

1. Create a 2- to 4-minute video that explains:

- What phishing is.
- The most common techniques used by cybercriminals.
- Signs that help identify a phishing attempt.
- Good practices to protect yourself.
- (Optional) An example or a short scenario illustrating an attack.

2. Free format:

- Video facing the camera
- Animation/commented slideshow
- Sketch / situation setting
- Motion design video
- Narration images/illustrations
- As long as the result is clear, understandable, and educational.

3. Constraints:

- Clear, accessible, and structured language.
- Accurate content that conforms to the concepts covered in class.
- Good sound quality.
- Respect of copyright for images, videos, or music used.

4. Deliverables:

- The video (MP4 format or unlisted YouTube link).
- A short text (5-10 lines) summarizing the objective of your video and your creative process.
